POA for any postcode not shown

Delivery will be to the nearest practicable point to the customers premises. Offloading and moving into position is however the purchasers responsibility unless alternative arrangements have been agreed.

Please note that these carriage charges are based on projected fuel costs and may therefore be subject to change.

We have tried to minimise carriage costs by using selected hauliers and our own vehicle wherever possible to help ensure a competitive and good quality service. **If access is very restricted you must notify us as a special delivery vehicle may be needed. This may incur a surcharge - please enquire.** Delivery of materials up to 250kg would normally include offloading from the vehicle, but not taking into, customers premises unless otherwise agreed. With larger amounts and especially with kilns & equipment, special assistance may be required: This must be discussed and agreed with us in advance.

**We can deliver Monday to Friday only: No deliveries at weekends or public/bank holidays**

**Delivery Notification:**

When ordering please advise us of your telephone number (and fax number/email address if available). Please inform us of any shutdown periods to avoid the risk of extra re-delivery charges. We will endeavour to give advance warning of delivery. With several deliveries on one lorry, however, unexpected delays due to weather conditions, breakdowns, traffic etc may cause some disruption to schedules.

**For pallet deliveries, please find your postcode on the table opposite: A code letter is quoted for each area.**

**Carriage rates are as the table below and are subject to VAT @ 17.5%**

**PLEASE REMEMBER THAT ALL WEIGHTS ARE GROSS (overall weight including packaging)**
